**Breakthrough Therapy by the US FDA**

Psilocybin therapy: treatment-resistant depression

- **What are you most proud of?**
  - I'm proud that we helped to establish mental health as one of the seven indications, and further investment in our team, technologies and portfolio.

- **What was the most challenging issue of the last six months?**
  - The team. We have an amazing group of 100 people now - many of them haven't even met each other because of lockdown! But we all work closely.

- **What was your favourite moment of the last six months?**
  - This has been an amazing effort by the whole team.

- **Innovations in psychiatry**
  - Our latest milestone is the phase IIb trial for COMP360 psilocybin therapy to patients.

- **What is the state of mental health care?**
  - An urgent mental medical need

- **What are your goals for the next six months?**
  - We have an amazing group of 100 people now - many of them haven't even met each other because of lockdown! But we all work closely.

- **What are your goals for the next six months?**
  - We're on track to report data for major depressive disorder

- **Recent developments**
